Gemtek SHOWCASE AT 2022 MWC

Dear Valued Customers and Partners,

We are excited to inform you that Gemtek will be attending the world's largest international mobile technology event, MWC Barcelona 2022, from 28th February to 3rd March 2022.

We sincerely invite you to join us at this annual tech event. This time, as always, we will demonstrate Gemtek latest featured products and solutions:

5G NR Client Devices

Gemtek outdoor and indoor 5G NR CPE models are equipped with high efficiency antenna apart from our extraordinary housing structures and self-installation design. These innovative 5G NR products will allow mobile/fixed operators to deliver significantly faster and more stable wireless internet services to their clients, especially on FWA application.

Open RAN Small Cell

Based on Open RAN architecture, Gemtek has developed an X-Cell All-In-One Box System for 5G/LTE small cell application by consolidating the eNB/gNB, EPC/5GC and software features into one. This 5G/LTE small cell system is capable of providing enhanced signal coverage, data traffic off-load, and advanced integrated services for enterprises, vertical market as well as smart factory scenarios. The split model can also cooperate with other vendor's DU/CU to fulfill more requirements of mobile/fixed wireless access applications on licensed band and shared band, such as CBRS, TVWS.

Wi-Fi 6/6e Series Products

Wi-Fi 6E is an extension of Wi-Fi 6, offering higher efficiency, lower latency and greater performance with 6GHz spectrum that enables more non-overlapping 160 MHz channels. Gemtek provides a series of Wi-Fi 6/6e product portfolio to fulfill the high performance local wireless internet access and home connected applications as well.

Please come visit us at Booth 5E11 Hall 5, Fira de Barcelona. Do not miss this yearly opportunity to discover our innovative technologies and exchange your valuable thoughts with us! We look forward to seeing you in Barcelona!

CEO
