

# Gemtek SHOWCASE AT MOBILE WORLD CONGRESS

Gemtek is holding a Four-day event for the public to see our newly launched products. In this event, Gemtek would like to show you our LTE one stop shopping solution and whole home coverage, which satisfy customers' need. What's more, we are delighted to show our newest products and technologies of Green IoT solution, which could be modified into a robust and complete solution for various industry applications. The event intends to demonstrate the concepts that we have been improving our expertise in RF technology and strengthening experiences in Telco and cloud businesses.

Our primary responsibility is to continually offer high quality and functionality as well as customer oriented solutions. If your company is looking for an one stop solution provider, look no further - You've found the right partner. We are showing our warm welcome to see you, witnessing our growth in the fields of LTE, IoT and cloud service.
